how it works!!

Welcome to Sectie-C! In 2010 this place was founded by Rob van der Ploeg and Martin Schuurmans. They started this community with 7 aspiring young artists. As the years went by, Sectie-C grew into what it is now: a community and almost self-sustaining enclave with more than 250 creative thinkers and doers. The terrain is a fertile ground for new ideas, products and solutions.

We like to encourage everyone on the terrain to make yourself visible, collaborate with other tenants and to take initiative. Freedom governs at Sectie-C, letting its residents create in an original and conscious way.

In 2014 Roos Groep became the owners of the Sectie-C terrain. Vereniging Sectie-C was founded in the same year, in order to guard everyone's interest and to maintain the communal feeling. The board strives to guide the creative innovation at Sectie-C, as well as to continue an active public image by organising events. Vereniging Sectie-C and Roos Groep are working together to develop Sectie-C more and more.

Finance & Contribution

It's important to have a personal communication and information method between all the 250 members of Sectie-C. Every hall has its spokesperson: the Hallenmeister. This person meets with the board and all the other Hallenmeisters every month and communicates information from the members of the board and vice versa.

One day a week the members of the board work for Vereniging Sectie-C. We have our regular activities, such as administration, meetings, communication (with you, Roos Groep and social media) as well as the organization of the Dutch Design Week. In recent months we have been focusing on the long-term development of Sectie-C. How can the terrain grow into a more attractive and interesting place, while keeping its authenticity? Think, for example, of optimizing the buildings to fit the members' individual preferences, creating an annual program or adding a cantine (with co-workspaces) and a coffee bar. To make this possible, we're meeting with interested parties, Roos Groep, funds, but also with you, the members. A small part of the contribution is compensation for the work we do.

How to participate

Vereniging Sectie-C organizes member meetings 4 times a year. During these meetings you will get an update about the developments on the terrain. The board encourages initiatives on the terrain. When you want to take initiative, get in touch with the board! community@sectie-c.nl

Everyone who has a workspace at Sectie-C pays €90 contribution to Vereniging Sectie-C. For this contribution we can organize member meetings, member events, board meetings with interested parties, PR and the website, communication, boosting initiatives and guarantees for member initiatives. 10% of the contribution is for the administration costs. You can send any questions about the contribution to contribution@sectie-c.nl.

Dutch Design Week
Our biggest collective event organized by the creative board, is the Dutch Design Week. Seven years ago it started with a few small studios and it evolved into a large scale event with more than 20.000 visitors. The organization is getting more professional, exhibitions are growing and also the quality of the participants on the terrain is getting better. For this upcoming Dutch Design Week we want to focus more on the benefits for the artists, designers and the creators of the terrain. They are the foundation of this event.
